REPORTING OVERVIEW

REPORTING OVERVIEW

What are goals?

- Goals are actions visitors can perform on our site that we value
- They are often split into 2 sections:
 - Micro conversion/goal – a small step on the path of a visitor towards your primary conversion goal (usually called a macro conversion)
 - Macro conversion/goal – primary action we want users to perform (transaction for ecommerce site, becoming a lead for lead gen sites)
- Crucial for performance evaluation

REPORTING OVERVIEW

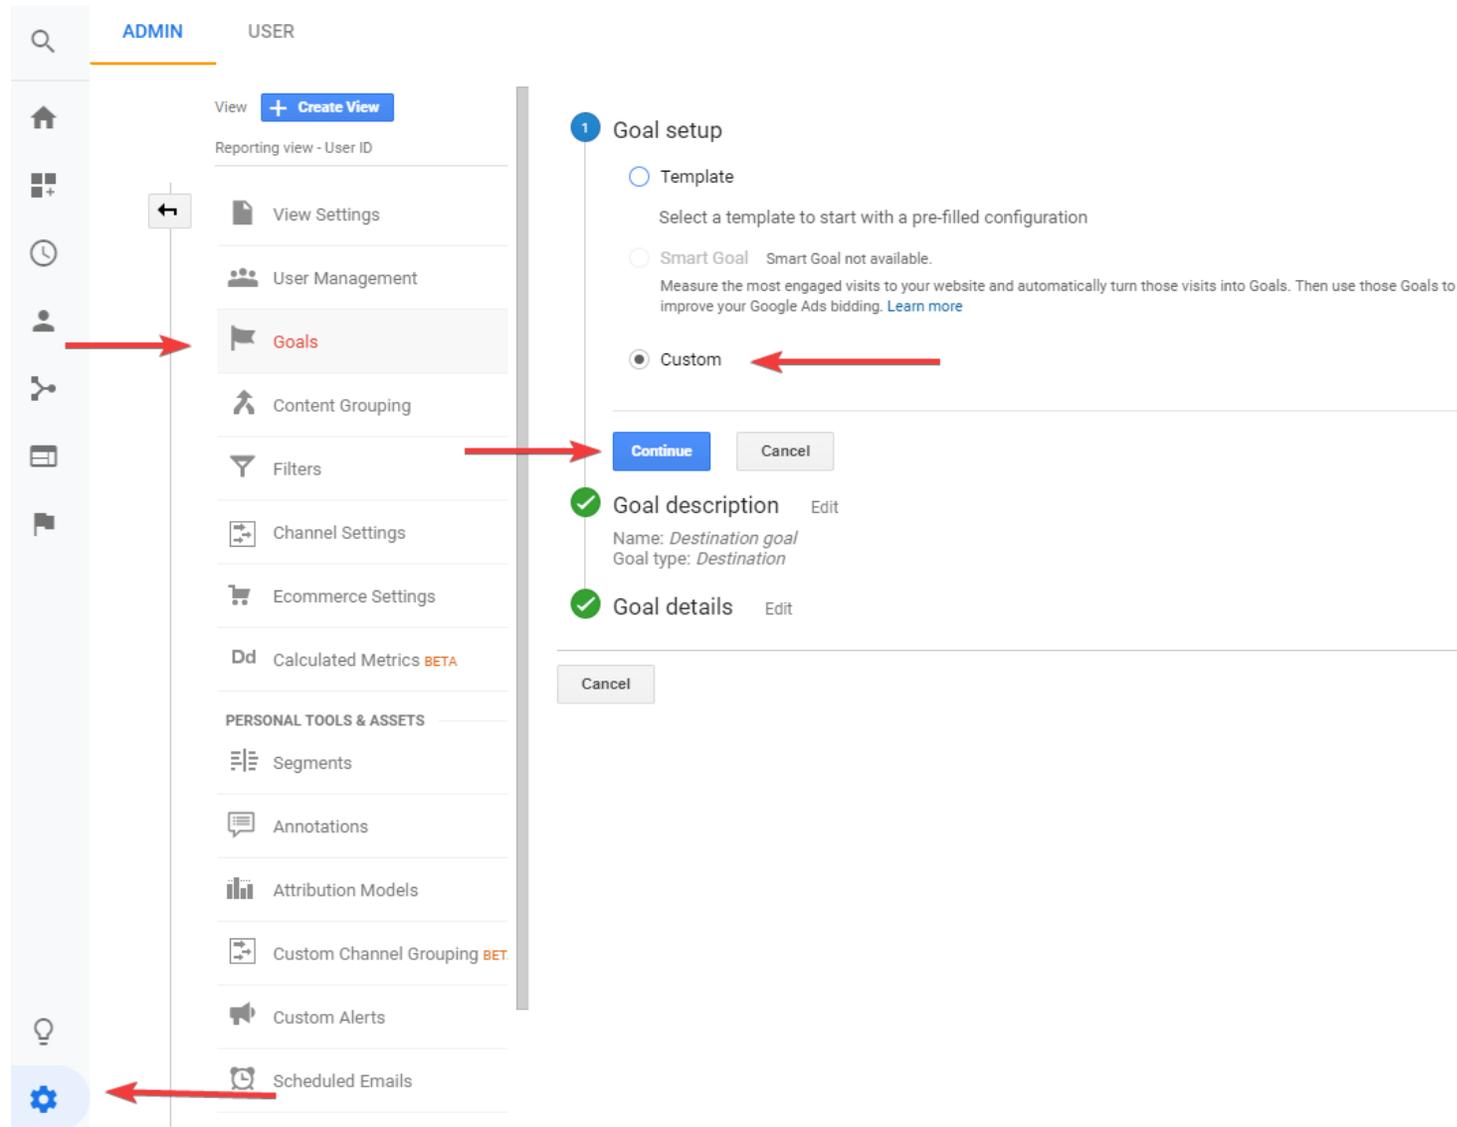

Goal types in Google Analytics

- Destination (visiting a certain page triggers a goal)
- Duration (session duration over a certain point triggers a goal)
- Pages per Session (number of pages viewed during a single session triggers a goal)
- Event (triggered when specific events are recorded)
- Smart Goal (automatic goal based on machine learning algorithms)
